

## SUMMARY

I am a Software Engineer with strong experience in building websites and web applications using Angular, React.js, and modern front-end tools. I also work with .NET Core, Node.js, SQL, and MongoDB to create secure and reliable backend systems. I have developed and improved many enterprise applications with a focus on user experience, clean design, and high performance. I enjoy solving problems, learning new technologies, and working with teams.

---

**Additional Technologies:** ChartJS, ApexCharts, MEAN/MERN, MongoDB, MS SQL, Adobe Suite

---

## EXPERIENCE

### Punjab Rural Support Programme — Sr. Software Engineer

*Lahore | Oct 2022 – Present*

- Develop and manage Angular projects for school management and other systems, focusing on clean UI, good user experience, and mobile-friendly design using HTML, CSS, SCSS, Bootstrap, Tailwind, and Angular Material.
  - Build and maintain React.js websites, improve performance, and deploy on IIS to ensure fast and scalable access to trading and business data.
  - Work on maps-based features, data visualization, and front-end interfaces that support different company departments.
  - Design and update .NET Core Web APIs to ensure smooth communication between front-end and backend services.
  - Manage MS SQL databases, write stored procedures, create tables, and support ERP system updates, bug fixes, and new feature development.
  - Use debugging tools and collaborate with cross-functional teams to fix issues and ensure reliable application performance.
  - Mentor junior developers and support them in improving code quality and following best practices.
  - Develop serverless applications with Next.js and deploy them on Vercel with CI/CD pipelines for better scalability and automation.
- 

### Evelogics — Full Stack Developer

*Islamabad | Aug 2020 – Sep 2022*

- Developed responsive dashboards using Angular and CSS/Bootstrap, improving data presentation and accessibility for trading platforms.
  - Fixed frontend bugs in Flutter applications and ensured smooth performance across web and mobile.
  - Built and improved user interfaces integrated with Firebase authentication for secure and seamless user access.
  - Delivered projects on time and worked closely with team members to solve technical challenges effectively.
- 

### CT Products (Pvt.) Ltd. — Graphics Designer

*Lahore | 3 month 2019*

- Designed social media posts, advertisements, and other visual content.
- Supported the team in graphic design and content creation tasks.

- Gained hands-on experience with WordPress for website design and management.
  - Improved skills in branding, visual communication, and design tools.
-
